General Dynamics – A Proven Market Leader in Technology Driven Products and Services

General Dynamics Information Systems and Technology

Information Technology - Serving customers in the defense, intelligence, health, homeland security, civilian government, international and commercial sectors, managing large-scale, mission-critical IT programs. Delivers advanced network-systems integration, IT services, enterprise solutions, systems engineering, simulation and training, wireless and professional services.

Mission Systems-Partnering with the U.S. defense, intelligence, cyber and homeland security communities, General Dynamics Mission Systems delivers sophisticated technology, from ground-based tactical networking to open architecture for U.S. Navy surface ships, submarines and aircraft. Thousands of expert and experienced employees located in facilities throughout the United States, Canada and the United Kingdom provide platform integration, tactical networks and ruggedized display

United Kingdom Limited - A prime contractor and complex systems integrator working in partnership with the UK's Ministry of Defence (MoD) and other allies to deliver command, control, communications, computers and intelligence systems such as Bowman. The company possesses the technical leadership, manufacturing expertise and contract management skills to deliver future network-enabled battlespace capabilities.

Who is General Dynamics Information Technology?

Meeting critical priorities from a position of strength

- Delivering the strength of information technology (IT) and professional services through the integration of forward-looking technology, strategy, domain understanding and management
 - Supporting customers with:
 - Enterprise-level IT systems integration and support
 - Market leading IT infrastructure modernization
 - Seamless IT life-cycle services
 - Mission-critical systems and contractor logistics support
 - Professional, administrative and management services
 - Simulation and training products and services

Who We Serve

Today we serve customers in various markets transforming enterprises to navigate the challenges of the future

- **Defense:** U.S. Army, Air Force, Navy, Marines, Joint, Reserve, National Guard, Department of Defense (DoD)
- **Federal Civilian:** U.S. Departments of the Treasury, Justice, Commerce, Education, Labor, Transportation and Energy; Federal Bureau of Investigation; Veterans Affairs

- **Commercial:** AT&T, Verizon, T-Mobile, Boeing, Hibbett Sporting Goods
- **International:** United Kingdom (UK) Department of Health, Southwark Council, Ealing Council

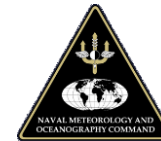

Who We Serve

Local Customer Support

Established in 1986, our Gulf Coast office provides Information Technology support across DOC, DOI and Navy Customers

- **DOI - Bureau of Safety and Environmental Enforcement:** Since 2004 GDIT has provided Data and Information Management support services for the BSEE Gulf of Mexico Region. Our support includes expert guidance in the oil and gas exploration and production (E&P) arena. Since 2005 we have provided information technology support which includes systems operations and maintenance, IT security, application development, and maintenance.
- **DOI – Bureau of Ocean Energy Management:** GDIT’s Data and Information Management support to BOEM includes project management, data quality, records management, Geological Interpretive Tools (GIT) support and Geophysical Data Archiving.
- **National Oceanic and Atmospheric Administration:** Since the Center Inception, GDIT has provided IT support including software development and system administration. We also provide scientific, geospatial, metadata and constituent services to support scientific stewardship of coastal data.
- **Commander, Naval Meteorology and Oceanography:** GDIT has been supporting the CNMOC claimancy since 1986. Within the Naval Oceanography program there are three environmental production centers; *Naval Oceanographic Office*, *U. S. Naval Observatory*, and *Fleet Numerical Oceanography and Meteorology Center*. GDIT provides IT support for these activities in the following focus areas: Architecture, Systems Engineering and Integration; Software Application Maintenance, Enhancement and Engineering; Data Architecture, Services, Modeling and Administrative Support; Design, Development and Implementation of Software Systems; and Naval Enterprise Portal – Oceanography.

Core Capabilities

Delivering the strength of IT and mission support services

- Enterprise IT System Development and Integration
 - Advanced network systems integration solutions driven by in-depth mission and enterprise experience
- Enterprise IT Operations and Maintenance
 - Vast experience delivering secure enterprise IT solutions that meet current and future needs with minimum risk
- Mission Support Services
 - Comprehensive range of professional and technical services to meet critical planning, staffing, management, technology and operational needs
- Simulation and Training
 - Leading-edge simulation, training, IT and systems integration solutions that help transform training and deliver operational readiness

Local Core Capabilities

Supporting Gulf Coast Customers since 1986

- *Software and Application Development*
- *Software and Systems Integration*
- *Operational Support and Maintenance*
- *Web Application and Portal Development*
- *GIS Application Development*
- *Data and Information Management Services*
- *Program Management Services*
- *Enterprise Architecture*
- *System and Network Administration*
- *Oceanographic/Acoustic Technical Support*
- *Custom Graphics and Design*
- *COTS/GOTS Integration*

Small Business Teaming

Doing business with General Dynamics Information Technology

- General Dynamics Information Technology develops strong alliances with small businesses that provide information technology and engineering services
 - Native American small businesses
 - SBA-certified HUBZONE
 - Small disadvantaged businesses (SDB)
 - Veteran-owned small businesses (VOSB), including service disabled veteran-owned small businesses (SDVOSB)
 - Women-owned small businesses (WOSB)
 - Historically black colleges and universities/minority institutions (HBCU/MI)
 - AbilityOne organizations
